INTOTA™ AND OUR KNOWLEDGEBASE
GLOBAL METADATA FROM A CENTRAL SOURCE

INTOTA IS FUELED BY A SINGLE, AUTHORITATIVE KNOWLEDGEBASE

ProQuest’s global Knowledgebase of electronic, print and digital resource metadata is an essential feature of the Intota library services platform. Available to all Intota libraries, the cloud-based service delivers up-to-date metadata from a central source when and where you need it, significantly reducing the amount of valuable time spent on manual metadata management while increasing the quality of resource discovery. The capabilities of the Knowledgebase are all the more powerful given the constant changes to provider holdings.

DO YOU WANT TO SPEND LESS TIME ON DAY-TO-DAY COLLECTION MAINTENANCE AND MORE TIME SERVING YOUR STAKEHOLDERS AND MEETING YOUR STRATEGIC GOALS?

ProQuest’s Knowledgebase is for librarians who have too much to do but lack the time and resources to do it all.

Our Knowledgebase:
- Provides global, comprehensive resource metadata that our team of librarians enriches and maintains so you don’t have to do it yourself.
- Understands the relationships between works, creators and providers to simplify resource management and enhance discovery.
- Saves you time as it is centrally managed and updated on behalf of thousands of libraries.
- Interoperates with KB+ and other community-managed metadata repositories.

WHY IS OUR KNOWLEDGEBASE ESSENTIAL TO INTOTA?

By integrating with Intota, ProQuest’s new platform that transforms library discovery, management, and assessment, our Knowledgebase:
- Delivers authoritative information about journals, books and other content across formats, languages, and subject areas for superior resource management and discovery.
- Makes comprehensive evaluation, acquisition and assessment possible.
- Delivers the same high-quality metadata to all areas of the library—from collection management to resource access—for a unified experience.
- Receives automatic updates for your DDA titles, aggregated collections and databases to reduce the burden on you to manage your holdings information.

| DATABASES – COMPREHENSIVE | 14,070 |
| FULL-TEXT DATABASES       | 10,860 |
| SERIALS HOLDINGS          | 2,734,759 |
| EBOOK HOLDINGS            | 14,303,133 |
| PROVIDERS                 | 6,774  |
| MARC RECORDS              | 11,546,977 |

2014
AN AUTHORITATIVE SOLUTION FOR DISCOVERY, ASSESSMENT AND MANAGEMENT

Discovery
Are you confident your metadata will connect users with library resources?
By understanding the relationships between works, creators and providers, our Knowledgebase makes it easier for researchers to get to library resources from wherever a search begins.
Choose Intota and our Knowledgebase if you want to help researchers:
• Find relevant results that provide information they can trust.
• Leverage high quality, direct links to your electronic collection.
• Have a library research experience that rivals the simplicity of the open web.

Management
Are you drowning in the details?
Our Knowledgebase provides global, comprehensive metadata that our team of librarians enriches and maintains on your behalf.
Choose Intota and our Knowledgebase if you want to spend less time:
• Contacting vendors to get title lists you’ll need to reconcile and correct.
• Searching for the highest quality bibliographic metadata available.
• Updating individual links so that your resources can be found and used.

Assessment
Are you looking for authoritative metadata to support collection decisions?
Librarians are the knowledge behind our Knowledgebase so you can rest assured that quality metadata for resources of every type and format is there when and where you need it.
Choose Intota and our Knowledgebase for peace of mind that:
• You have a deeper understanding of resources and their providers.
• Your decision-support metadata is comprehensive and up-to-date.
• Your library’s collection can be found, used and valued.

WHAT OUR CUSTOMERS ARE SAYING
Relying on the Knowledgebase means I can dedicate more time guiding students to the wealth of information available through our library and less time in system maintenance. This will contribute to more positive and productive research experiences.

- Katy Silberger, Marist College
