

Preparing Your Manuscript for Submission (Including Supplemental Files)

Submit as a PDF

When submitting a page-based manuscript of your dissertation or thesis, it must be submitted to ProQuest Dissertation Publishing in Adobe PDF format. When preparing your PDF, be sure to do the following:

- Embed all fonts (further information is provided below related to embedding fonts)
- Make sure there is no password protection on the PDF
- Ensure that security settings allow printing
- Format as individual, single pages

Note: As part of our normal process, ProQuest inserts an extra page in the front of every published manuscript.

Verify Proper Formatting

ProQuest Dissertation Publishing makes no changes to the formatting or content of submitted manuscripts. Therefore, the burden of how the manuscript looks when it is accessed or printed is entirely the responsibility of the author. ProQuest strongly recommends that individual authors take responsibility for reformatting the document into Adobe PDF, for checking the reformatted document for accuracy, and for submitting the PDF document to the graduate school or library for publication.

Abstract

We no longer have a word limit on your abstract, as this constrains your ability to describe your research in a section that is accessible to search engines, and therefore would constrain potential exposure of your work. The abstract as you submit it will NOT be altered in your published manuscript. Please include an additional version of your abstract in English, even if the primary language of your dissertation or thesis is NOT English. For additional information regarding formatting of abstracts, please see the FAQ here:

<http://www.etsadmin.com/cgi-bin/main/faq?siteid=164#ts10>

Manuscript Specifications

Your dissertation or thesis will be produced in digital, print and microform and/or microfiche format. Your library may have a standing order for reduced (6" x 9") size bound copies. Achieving a legible copy of acceptable quality in all of these formats and sizes requires a conservative approach to paper size and quality, fonts, font sizes, spacing, images and graphics. Your institution may provide you with specifications for some or all of these details, in addition to specifications for required sections, organization, pagination, and others. In cases of variation, your institution's specifications supersede ours. Please adhere to either/both your institutional specifications and those that follow here to ensure the highest quality reproduction of your work.

MAKE SURE all your fonts are embedded. See the end of this guide for instructions on embedding fonts. Manuscripts without embedded fonts can cause ALL punctuation and formatting to disappear when the document is printed from the digital file, and causes delays in our publishing process.

File Format: Manuscript	Adobe PDF required. NO compression; NO password protection; NO digital Signature. You are responsible for the appearance of your manuscript in PDF. It will appear and may be downloaded exactly as you submit it.
Multimedia files and formats	Digital preservation best practices typically recommend including multimedia content as supplemental files, rather than embedding multimedia in PDFs. ProQuest will accept multimedia content of all file types. File types listed below will be migrated by ProQuest. File types other than those listed below are not guaranteed to be migrated.

Images	GIF (.gif); JPEG (.jpeg); TIFF (.tif)
Video	Apple Quick Time (.mov); Microsoft Audio Video Interleaved (.avi); MPEG (.mpeg)
Audio	AIF (.aif); CD-DA; CD-ROM/XA; MIDI (.midi); MPEG-2; SND (.snd); WAV (.wav)
Margins	Left: 1"; Right: 1"; Top and Bottom: 1".
Fonts	Applies to all material except page numbers, including figures, headers/footers, footnotes/endnotes, and full-page images. Page numbers: at least 3/4" from edge of page.
Line spacing	Embedded fonts REQUIRED. Post Script Type 1 fonts required. Any legible font except script, italic, or ornamental fonts equivalent in scale to 10pt. Arial or 12pt. Times New Roman accepted. Italicized font may be used for non-English words and quotations. Applies to all text including captions, footnotes/endnotes, citations, etc.
Color	Double-space: abstract, dedication, acknowledgements, table of contents, and body of the manuscript, except for quotations as paragraphs, captions, items in tables, lists, graphs, charts. Single-space: footnotes/endnotes, bibliographic entries, lists in appendices.
Reproductions	PDF and Print reproductions will include all color material. Microfilm reproductions will NOT preserve color; colors will appear in shades of gray.

Supplementary Materials

If supplementary materials—such as audio, video, and spreadsheets—are part of your dissertation or thesis, you can submit them as supplementary files during the online submission process. Upload them as part of the submission process, and provide a description of each supplementary file or files in the abstract of your graduate work.

- Do not embed media files in your PDF:
- Upload media files as supplementary files: During online submission, you will be asked to upload any supplementary files.
- Describes files in your abstract: Add a description of each supplementary file in your abstract.

Supporting Documentation for Supplementary Materials

Including supplementary materials with your submission may require additional paper documentation before we can complete the publishing process. For further information see

“Sample Permission Letter for Use of Previously Copyrighted Material”
http://media2.proquest.com/documents/UMI_CopyrightGuide.pdf)

- Reprint Permission Letters:

If you are going to include multimedia material covered under someone else's copyright—an audio or video clip, a digital photograph, etc. - you must provide us with written permission to include it.

- Third Party Software Licenses (if needed):

If you are including third party software with your submission, you must provide written permission to distribute it. Note that this is different than including a file generated by a particular program - i.e., including a copy of Microsoft Excel is different than including an .xls file generated in Excel. You do not need a software license to include an .xls file.

Additional paper documentation, when required, can be mailed to us at: Dissertations

Embedding Fonts

This guidance assumes you are writing your manuscript in MS Word on a PC. If you are using a Mac, similar guidance can be found here: (<http://www.etsadmin.com/cgi-bin/main/faq?siteId=0#pdf9>)

Create your manuscript using a TrueType font—NOT a scalable font. See below for a list of recommended TrueType fonts and point sizes. Then:

1. On the Tools menu, click Options, and then click the Save tab.
2. Select the Embed TrueType fonts check box.
3. Save the document.

Alternatively, if you have Acrobat Professional available to you, you can follow the excellent instructions provided by the Graduate Thesis Office at Iowa State University:

1. Open your document in Microsoft Word.
2. Click on the Adobe PDF tab at top. Select "Change Conversion Settings."
3. Click on Advanced Settings.
4. Click on the Fonts folder on the left side of the new window. In the lower box on the right, delete any fonts that appear in the "Never Embed" box. Then click "OK."
5. If prompted to save these new settings, save them as "Embed all fonts."
6. Now the Change Conversion Settings window should show "embed all fonts" in the Conversion Settings drop down list and it should be selected. Click "OK" again.
7. Click on the Adobe PDF link at the top again. This time select Convert to Adobe PDF. Depending on the size of your document and the speed of your computer, this process can take 1-15 minutes.
8. After your document is converted, select the "File" tab at the top of the page. Then select "Document Properties."
9. Click on the "Fonts" tab. Carefully check all of your fonts. They should all show "(Embedded Subset)" after the font name.
10. If you see "(Embedded Subset)" after all fonts, you have succeeded.

Some recommended TrueType fonts and point sizes

*Arial	10pt
Century	11pt
*Courier New	10pt
Garamond	12pt
*Georgia	11pt
Lucida Bright	10pt
Microsoft Sans Serif	10pt
Tahoma	10pt
*Times New Roman	12pt
*Trebuchet MS	10pt
*Verdana	10pt

* Web font. Designed for easy screen readability. Since many readers are likely to view and/or use your dissertation or thesis onscreen, you may wish to improve the readability of your text by using one of these fonts.
