

eLibrary®

Research Made Easy

Stress-Free Topic Discovery

eLibrary simplifies the research process, empowering novice researchers to more easily and efficiently identify their research topic and find authoritative information to support their research claim.

Innovative features and age-appropriate content help students discover interesting, approved topics based on current events and issues that matter to them – sparking their curiosity and setting them on the path of a successful research journey.

Easy Topic Selection

More than 10,000 editor-created Research Topic pages deliver the essential elements on a vast array of people, places, historical events, literary genres, current events, broad curricular themes and much more. Editor's Picks and Trending Topics make it easier to explore appropriate subject matter and help students to get started.

Reliable Sources

Researchers can access primary and scholarly sources, and all content is 100% full text. 2,000 magazines, newspapers, transcripts and digitized reference book content, more than seven million images, maps, videos and interactive simulations, all expertly curated by ProQuest editors.

eLibrary provides top-quality multimedia sources. Leading publishers include DK Eyewitness, Encyclopedia Britannica, The New York Times, The Economist, Getty images and the Bridgeman Art Archive.

Visual and Responsive Design

eLibrary focuses on features and highly-visual design elements that quickly and easily guide researchers to the content and tools they need. Research Topics are showcased front and center with eye-catching imagery. The responsive design is optimized for use on any device. Features such as Lexile® reading levels, citation tools, and Google Drive and MS OneDrive integration facilitate student collaboration.

Grow Database Usage Stats

eLibrary is also available on the award-winning ProQuest platform, so users can cross-search with your library's other ProQuest subscription databases improving usage and library return-on-investment.

Research Topics pages jump-start research on key topics with context and pathways for exploration
