

# What's New in OASIS

## Expanding our Global Content Offering

**+55 Million**

print and ebook titles available to purchase through OASIS

**+2.3 Million New Titles** added in 2023

Content Available in **100+ Languages**

**25+ Publisher Platform Partners**

## New to OASIS: Torrossa Digital Library from Casalini Libri

Libraries can now acquire over 65,000 ebooks\* from Torrossa through OASIS, gaining access to a variety of Spanish and Italian content in subjects across the humanities and social sciences.

Torrossa is the full-text digital platform of Casalini Libri, distributing content from over 300 international publishers in subjects ranging from ancient history to archaeology, from cinema to architecture, from philology to philosophy, from psychology to law, many of which cannot be found elsewhere.

Torrossa is one of a growing roster of publisher direct platforms available through OASIS to help librarians consolidate searching, ordering, invoicing, and activation within a single system.

**Did you know?** Librarians can request access themselves to Torrossa and any of our other publisher direct platforms directly within OASIS. Navigate to the user menu, click "Platform Settings," and choose "Initiate Setup" for your platforms of choice.

Platform name	Display	Action	Status
Alexander Street	<input checked="" type="checkbox"/> Everyone <input checked="" type="checkbox"/> Me	Choose ▾	Active No further action needed

## 2023 Product Release Highlights

In 2023 we delivered several enhancements to the OASIS interface to improve user experience and streamline librarian workflows.

### Ebook Central Discount Display in Search Results

Ebook Central discounts now display in the search results for a more transparent and seamless shopping experience. View the final price (including discounts) for Ebook Central titles at the search level before adding items to your cart.

### Download to Excel

Users can now download a list of search results to Excel, including lists larger than our previous limit of 3,000 titles.

### Near Real-Time Add to DDA

OASIS sends add-to-DDA requests for ebooks to our participating DDA platforms (EBC, EBSCO, JSTOR) every 15 minutes, ensuring patrons have more immediate access to titles on these platforms.

### Saved Preferences for Sort Settings

OASIS now saves a user's sort preferences across sessions so that staff can quickly get to the information they need, without having to continuously adjust settings.

### New Format Filter

A new Format filter appears in Authorize Orders and the Cart, allowing ratifiers to quickly filter by Print, Electronic, or Other when ordering titles.

## Resources for College Libraries (RCL) and OASIS

Simplify workflows with integrated purchase options

For libraries with limited staff, time, and budgets, Resources for College Libraries (RCL) delivers vetted, value-added content to support collection

Resources for College Libraries

services. RCL is a core bibliography developed by ACRL/Choice subject specialists that includes over 90,000 essential titles selected and peer-reviewed by a team of 700+ academic librarians and faculty.

**New in 2023!** RCL database users can streamline acquisitions workflows by identifying key works in RCL, then going directly to the OASIS catalog to purchase titles.

Libraries can use RCL to purchase in OASIS in four easy steps. [Learn how](#)
