

# Research Library

## The starting point for research: key titles and diverse, international content across the curriculum.

**Research Library** solves a common library problem: where to begin with a research problem or topic search. It provides a diverse, international mix of scholarly, professional, and consumer periodicals that cover a broad but reasonable set of content in over 100 subjects. Updated often with fresh content, it also has a very deep backfile for context and provides the renowned ProQuest vocabulary and indexing together with a user-friendly interface.

**Key titles.** This multidisciplinary periodical database includes high value titles such as *The Economist, The Lancet, The New England Journal of Medicine,* and *Nature Publishing* titles. Research Library provides great value as its content grows.

**Broad coverage.** Research Library provides an international mix of scholarly, professional, trade, and consumer titles that cover over 100 subjects, including business, the sciences, education, literature, the arts, medical, and social sciences. Research Library currently includes more than 7,300 titles with more than 5,600 of those titles in full text and more than 2,500 in ongoing full text.

**Content variety.** It features a highly-respected, diversified mix of scholarly journals, trade publications, magazines, and other content. Research Library covers a wide range of subject areas, making it useful for serving the diverse needs of both one-time and serious research inquiries. It covers the top 100 core academic subject reference areas extensively, making it not only an invaluable database for a number of academic disciplines but also accessible to readers and researchers at every level.

Clarivate

# Why Research Library?

- The starting place for periodical research, covering many subjects and topics.
- Balances diverse academic, professional, and consumer resources—all with deep backfiles.
- The ProQuest platform streamlines discovery, deepens research, and delivers accessibility, privacy, interoperability, and trusted library reporting.

## Content variety

**Scholarly Journals:** Provides peer-reviewed research and expert analysis for developing credible, evidence-based arguments.

**Magazines:** Adds accessible perspectives and real-world context that help connect academic topics to contemporary issues.

**Trade Journals:** Offers industry-specific insights, trends and practices that connect classroom learning to the professional world.

**Reports:** Delivers data, analysis and findings that provide evidence for research, assignments and deeper investigation.

**Newspapers:** Brings timely events and diverse perspectives into research, helping students explore how topics unfold and are understood in the real world.
