# Why do you need ebooks in Science & Technology?

Offering journals alone won't give your researchers — or faculty — the support they need. Offer a diverse collection comprised of books and ebooks, along with other resources, to help researchers succeed. According to a 2017 ProQuest survey, nearly 100% of faculty recommend ebooks to their students and almost 80% use ebooks in their research.

## Content diversity is critical.

In 2017, ProQuest asked researchers from around the globe what types of resources they use in their research. Two out of three respondents indicated they use every content type with books and ebooks being the most popular.

## Our Science & Technology Ebook Subscription is one of 10 subject specific collections that can be licensed separately and align with other ProQuest databases.

"Academic Complete helps us to provide more ebooks for undergrads in subject areas in which we might not always choose to purchase ebooks. The interface has always been the simplest to use, and the one that our users seem to like the most. Also, the multiple users for every title is invaluable - we never have to worry about turnaways."
