**Description**  
Drugs of the Future from Prous Science provides comprehensive product monographs and updates on bioactive compounds that are advancing through the pharmaceutical pipeline from pre-clinical testing through marketing. Each document includes the synthesis pharmacological activity, pharmacokinetics and metabolism, toxicological studies and clinical trials for a compound, bringing all the information together in one source. Sources of the data include published and unpublished data from conferences, journals, and patents, worldwide.

**NOTE:** This file is closed; updating ceased February 18, 2011.

**Subject Coverage**  
Fields in the Prous Science Drugs of the Future database include:

- Activity
- CAS registry number
- Molecular formula
- Chemical names
- Company codes
- Generic names and trademarks
- Corporate or other sources
- Licensees
- Development phase
- Literature references (authors, titles, publications)
- Synthesis scheme
- Figures and tables
- Related compounds
- Chemical structure

**Date Coverage**  
January 1, 1990 to February 2011

**Update Frequency**  
Closed

**Geographic Coverage**  
International

**Document Types**  
Directories

**Publisher**

</table>
Field codes may be used in searches entered on the Basic Search, Advanced Search and Command Line Search pages. The tools available for searching are Search Fields, Limit Options, Browse Fields, “Narrow Results By” Limiters and Look Up Citation. Each is listed separately below. Some data can be searched using more than one tool.

**LIMIT OPTIONS**

Limit options are quick and easy ways of searching certain common concepts. A check box is available for:

Documents with images

A short list of choices is available for:

Highest phase

**BROWSE FIELDS**

You can browse the contents of certain fields by using Look Up lists. These are particularly useful to validate spellings or the presence of specific data. Terms found in the course of browsing may be selected and automatically added to the Advanced Search form. Look Up lists are available in the fields drop-down and in the search options for:

Classification

and in the fields drop-down only for:

Company (includes Licensee and Originator)
“NARROW RESULTS BY” LIMITERS

When results of a search are presented, the results display is accompanied by a list of “Narrow Results by” options shown on the right-hand panel. Click on any of these options and you will see a ranked list showing the most frequently occurring terms in your results. Click on the term to apply it to (“narrow”) your search results. “Narrow Results by” Limiters in Prous Science Drugs of the Future include:

Classification, Highest phase, Company

LOOK UP CITATION

If you need to trace a particular bibliographic reference, use the Look Up Citation feature. Find a link to this towards the top left-hand corner of the Advanced Search page; click this and you will go to a form where you can enter any known details of the citation, including:

Document title, Author, Publication title, ISSN, ISBN, Volume, Issue, Page, Date, DOI

Terms & Conditions
In addition to the Dialog Standard Terms & Conditions, the following Provider terms and conditions also apply.
